56. Serials is different from a book (a) preliminary (b) subsidiary (c) bibliography (d) graphically
57. Which of the following is not a characteristics of a computer (a) speed (b) accuracy (c) automation (d) less efficiency
58. The cycle of a computer is known as ____ (a) input-process-output (b) output-process-input (c) input-output-process (d) output-input-process
59. Which of the following measure charges in electrical states? (a) digital computer (b) hybrid computer (c) analogue computer (d) manual computer
60. Which of the following is a combination of two types of computers? (a) digital computer (b) analogue computer (c) manual computer (d) hybrid computer
61. ____ are the physical components of a computer (a) hardware (b) software (c) firmware (d) mid-ware
62. ____ is a software that perform specific task. (a) software (b) mid-ware (c) hard-ware (d) firmware
63. The interface between the user and the computer is ____ (a) input unit (b) output unit (c) processing unit (d) central unit
64. The interface between the computer and the user is ____ (a) input unit (b) output unit (c) processing unit (d) central unit
65. Which of the following is not an example of output devices? (a) visual display unit (b) loudspeaker (c) keyboard (d) plotter
66. The device that retains its content when power is off is ____ (a) main memory (b) primary memory (c) mass memory (d) digital memory
67. ____ is a main memory (a) ROM (b) RAM (c) RIM (d) Auxiliary storage
68. ____ controls all the computer operations (a) monitor (b) C.P.U (c) keyboard (d) A.L.U
69. The C.P.U of a microcomputer is called ____ (a) macro processor (b) mini processor (c) microprocessor (d) super processor
70. Which of the following is not a component of C.P.U? (a) ALU (b) ROM (c) RAM (d) CU
71. ____ software are produced usually by two software (a) system (b) application (c) general purpose (d) operating
72. ____ provides a link between the application program and the hardware (a) system software (b) general purpose software (c) application software (d) acrating system
73. Which of the software can be used to solve equation or produce a payroll? (a) operating system (b) application software (c) general purpose software (d) system software
74. Another name for word processing and spread sheets is ____ (a) generic software (b) general purpose software (c) application software (d) system software

75. Which of the following is not an example of software packages? (a) Microsoft word (b) Microsoft power (c) internet explorer (d) Microsoft excel
76. Which of the following software packages is used to create spread sheets and charts? (a) Microsoft word (b) Microsoft power (c) internet explorer (d) Microsoft excel
77. Which of the following is not an exception in which software can be obtained? (a) off the shelf package (b) adaptable package (c) drawn programme (d) on the shelf package
78. Which of the following is not a concept of computer application in libraries? (a) multimedia personal computer application (c) CD ROM searching (d) none of the above
79. _____ is a private network that is contained within an enterprise (a) internet (b) intranet (c) personal computer (d) local area network
80. Central point of users to bibliographic holding of any library is _____ (a) library catalogue card catalogue (c) copy catalogue (d) online catalogue
81. Which of the following is not a merit of a modern computer? (a) saves time (b) save space relevance (d) requires special skill
82. Which of the following is an advantage of a data base system? (a) larger size (b) data independence (c) more complex recovery procedure (d) grantor complexity
83. Which of the following is not a function of a library automation? (a) voice control (b) acquisition (c) circulation (d) serials control
84. Punched card are invented by Hollerith in what year? (a) 1880 (b) 1881 (c) 1882 (d) 1883
85. Which of the following is not an acceptable code of conduct in Olusegun Oke library? (a) care of your own belonging (b) switch off the computer after your unit is completed (c) save document on the desktop (d) keep your mobile phone on silent mode
86. In a library building, which type of communication network is used? (a) WAN (b) LAN (c) WLAN (d) LWAN
87. _____ library is a type of information retrieval system (a) electronic library (b) digital library (c) virtual library (d) academic library
88. Which of the following is a disadvantage of a data base system? (a) consistency of data (b) complex recovery procedure (c) data independence (d) control over redundancy
